_____	_____	_____	Y / N	_____

Problem Solving Scenario:

Currently, there are 6 foster kids in your home and tonight you have parent/teacher conferences at school at 6pm and 7pm. Two of your kids are on the brink of failing multiple classes in junior high so your attendance at these student-led conferences will weigh heavily on their grade. Another one of your kids got sent home sick with the flu and needs to get to urgent care, and your sibling set of 2 has to leave for a 1-hour visit at 6:30pm. Unfortunately, your partner/spouse, (the other adult caregiver), has 2 tickets to the Chiefs playoffs game tonight and is taking your oldest honor roll student to the game as a long awaited reward and will be unavailable to assist you. What will you do to assure everyone's safety and well-being, and still get these vital tasks completed? Explain below (or attach an additional document).

House Parent Application

What motivated you to become a foster parent? If you currently foster children, what motivates you to continue to be a foster family? Explain below (or attach an additional document).

What about living at Drumm Farm Center for Children is appealing to you? What benefits do you think would come from living in a neighborhood of foster families? Explain below (or attach an additional document).
